day: October, 1890, was the month in which more cattle arrived at Kansas City than any month before or since, but the current month bids fair to outdo October's record. For the first 18 days of October there arrived 102,798 head, while for the same number of days this month 123,932 head arrived, or 21,139 more than in October. A daily average of 4810 head for the remaining 12 days (including to-day) will tie the record, and it is probable that more than that number

will arrive.
